## Applications Developed

**Book Worms** – Live | Github
- Mobile first application that allows users to search or create study groups at University of California Irvine
- Lead Front End Developer – client-side framework created in **React** and **Redux** with design made using **CSS3**
- Uses **Axios** calls to retrieve **JSON** data from the **MYSQL** database
- Utilized **Agile** methodology with **ideation**, **scrums**, and **sprints** to achieve MVP, expanded features and addressed bugs

**Twitch Buddy** – Live | Github
- Website that shows in-game stats of popular Twitch streamers
- Utilized **JavaScript**, **jQuery**, and **AJAX**'s calls to **API**'s to show streams and display each streamers stats
- Applied **HTML5** to create basic skeleton and used **CSS3** and **Bootstrap** to style
- Utilized **Meistertask** to organize, plan, and delegate tasks to each team member

**My Checkbook** – Live | Github
- Website that helps users balance their checkbook and keep track of finances
- **User interface** created in **JavaScript** and **jQuery** and uses **AJAX** calls to retrieve data from database
- **MySQL** database accessed with **PHP** and the deployed to **AWS**
- Mobile-friendly design created with **CSS3** and **Bootstrap**

## Education

**California State University, San Bernardino**
- B.S of Computer Science – 2 years completed

**LearningFuze | Irvine, CA**
- Accelerated Web Development Program

## Professional Experience

**Office Assistant | Riverside County Adult Probation**
2014 – 2017
- Worked with FBI database to obtain all information of each defendant
- Worked with other online databases to store and update all information for each case
- Documented all updates made on each case and notified the assigned probation officer
- Planned and assigned daily tasks to each team member
